Day 1 - Wisdom

1. Coloring Sheet and Word Find
2. Craft - Make a house with your favorite building materials (LEGO bricks, Play-doh, cardboard boxes, etc.) What makes all buildings stable and strong is the foundation like a solid rock.
3. Snack - Mini Rice Krispy treats, brownies, or another stackable snack. These look like bricks to build with. Can you make the shape of a cross before enjoying?
4. Activity - Cup stacking or Jenga. Try stacking cups or playing Jenga on a solid, flat, level surface like a table, floor, or sidewalk. Then try it on soft, uneven, or unstable surface like grass, sand, or water. How did the foundation affect how high you can build?
5. Service - Non-perishable food items like cans and boxes of food can be great for building before donating to the Food Pantry. Take a picture of what you built and share it with us.
